Accident / Damage Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada. Different information in a vehicle's history can indicate an accident or damage, such as: salvage auction, fire damage, police-reported accident, crash test vehicle, damage disclosure, collision repair facility and automotive recycler records. Not every accident or damage event is reported and not all reported are provided to CARFAX. Details about the accident or damage event when reported to CARFAX (e.g. severity, impact location, airbag deployment) are included on the Vehicle History Report. CARFAX recommends you obtain a vehicle inspection from your dealer or an independent mechanic.

- According to the National Safety Council, Injury Facts, 2007 edition, 7% of the 245 million registered vehicles in the U.S. were involved in an accident in 2005. Over 75% of these were considered minor or moderate.
- CARFAX depends on many sources for its accident / damage data. CARFAX can only report what is in our database on 30.Jun.2010 14:43:37. New data will result in a change to this report.

New Jersey Police Reports:

- Do not include an assessment of damage severity
- Are required if the estimated damage exceeds \$500
- Are released biannually to CARFAX in November and June

Airbag Deployment

Occurs when the driver, passenger or side airbag has been used or deployed during a crash or other incident. If an airbag has been deployed, it must be replaced by a qualified technician. Have this car inspected by a mechanic prior to purchase. Use [CARFAX Airbag Tips](#) to make sure this vehicle's airbag system is functional.

CARFAX History Impact

Accidents, service records, number of owners and many other history factors can impact a vehicle's value. The CARFAX History Impact is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX impacts the value of a particular vehicle. The vehicle's retail book value plus the CARFAX History Impact will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Salvage Title

A Salvage Title is issued on a vehicle damaged to the extent that the cost of repairing the vehicle exceeds ~ 75% of its pre-damage value. This damage threshold may vary by state. Some states treat Junk titles the same as Salvage but the majority use this title to indicate that a vehicle is not road worthy and cannot be titled again in that state. The following eleven states also use Salvage titles to identify stolen vehicles - AZ, FL, GA, IL, MD, MN, NJ, NM, NY, OK and OR.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

CARFAX DEPENDS ON ITS SOURCES FOR THE ACCURACY AND RELIABILITY OF ITS INFORMATION. THEREFORE, NO RESPONSIBILITY IS ASSUMED BY CARFAX OR ITS AGENTS FOR ERRORS OR OMISSIONS IN THIS REPORT. CARFAX FURTHER EXPRESSLY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. CARFAX®

 ●●●○ Marginal
 ●●○○ Poor
 ●○○○ Very Poor

The National Highway Traffic Safety Administration (NHTSA) provides 3 different ratings - **full-width frontal crash test**, **side impact crash test**, and **rollover resistance**. The frontal crash test indicates how well the safety features and restraints will protect an occupant in a head-on collision. The side-impact test conveys the chance of a severe chest injury, while the rollover resistance rating estimates the risk of rolling over in a single vehicle crash. Go to [NHTSA](#) to learn more about these results.

average

Average

Better than average

These scores are stated in relative terms, with 100 being the average for all cars in each category. Scores greater than 100 represent higher risk in each category. For example, an injury indicator score of 122 means that a passenger in this model is 22% more likely to be injured in an accident. The injury, collision, and theft indicators for this 2005 HONDA CIVIC DX VP are provided by the Insurance Institute for Highway Safety, Highway Loss Data Institute. [Learn more](#) about these results.

[Back to top](#)

Safety Recalls**NHTSA Safety Recalls:**

Important: The following recalls were issued for the 2005 HONDA CIVIC DX VP by the National Highway Traffic and Safety Administration (NHTSA). To find out if a specific 2005 HONDA CIVIC DX VP still has open recalls that require repair, CARFAX recommends contacting an **authorized dealership** for more information.

Recall date:	Not reported
Units potentially affected:	6,545
NHTSA campaign number:	07V512000
Defective part or component:	FUEL SYSTEM, OTHER:STORAGE:TANK ASSEMBLY
Description:	On certain compressed natural gas (cng) vehicles, in the event of a severe interior fire in the area of the rear seat, the cng tank may be heated unevenly, preventing the pressure relief device from venting the contents of the tank as designed. This could result in a tank rupture, explosion, and ejection of the tank from the vehicle. Dealers will install a heat insulator material to the rear seat back. An interim owner letter was mailed to owners beginning November 26, 2007. When parts are available, owners will be renotified asking them to bring in their vehicle for repair. Owners may contact Honda at 1-800-999-1009.

This 2005 HONDA CIVIC DX VP safety recall information was provided by the Insurance Institute for Highway Safety, Highway Data Loss Institute and is derived from the [National Highway Traffic and Safety Administration](#) list of safety recalls. Please call the National Highway Traffic and Safety Administration Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236) to report safety defects or to obtain information on cars, trucks, child seats, and highway or traffic safety. CARFAX does not review, validate or edit the information and statements provided by the National Highway Traffic and Safety Administration, which do not represent the opinion of CARFAX.

New Car Test Drive Review

Category:

Summary:

Review:

Big satisfaction in a small package.

By Mitch McCullough, NewCarTestDrive.com

Overview:

Now in the latter part of its product cycle, the Honda Civic remains a class standard. You can't go wrong with a Civic regardless of trim level, and there are a broad range of choices to suit budgets, needs or tastes. All are practical, fuel efficient and fun to drive. Other small cars might beat the Civic in a particular area or category of performance, but few match its overall balance of strengths.

New Car Test Drive editor Mitch McCullough is based in Southern California.

Efficient, practical, affordable, polished and pleasant to drive, if not downright fun, with a reputation for reliability: These are the Honda Civic's hallmarks, and nothing about the 2005 model suggests anything has changed.

Measured by the hardware, little has changed on the Civic for 2005. There are a couple of new paint colors and a Special Edition package at the high end of the line-up. On the other hand, price increases are so modest that they haven't kept pace with inflation, and the Civic had significant changes inside and out for 2004.

Few carmakers offer the range or diversity Honda builds into the Civic line. There are sedans, coupes and a hatchback, with an emphasis on either features and convenience, performance or fuel efficiency and low cost of operation. All are notable for their excellent fuel economy, free-revving engines and solid handling, including the electrically assisted Hybrid. Up-level Civics come with powerful VTEC engines that deliver brisk acceleration. The Si hatchback is the flagship performance model, and a favorite among young enthusiast drivers for good reason. All provide superb comfort for front-seat passengers.

Three specialized Civics are designed specifically to minimize environmental impact and deliver better fuel economy than all but a few cars currently available. The most extreme is the Hybrid sedan, which gets up to 51 mpg with help from an electric motor that never needs to be plugged in. Owning and driving a Civic Hybrid is just like life with a regular Civic, almost. The Civic HX coupe gets 44 mpg on regular unleaded. There's also a Civic GX sedan that burns natural gas; Honda claims it has the cleanest internal combustion engine in the world.

Subtle styling changes were made for 2004 when bumpers, hoods, headlights and grilles on the coupe and sedan were redesigned to emphasize a baby-brother resemblance to the slick, smooth Honda Accord. The sporty Si hatchback was trimmed with new head- and tail lamps. All Civics were improved with less visible updates that reduced noise and vibration inside.

Nearly four decades after its introduction, the Honda Civic can rightfully be called an automotive icon. It remains one of America's best-selling small cars for good reason.
