Accident / Damage Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada. Different information in a vehicle's history can indicate an accident or damage, such as: salvage auction, fire damage, police-reported accident, crash test vehicle, damage disclosure, collision repair facility and automotive recycler records. Not every accident or damage event is reported and not all reported are provided to CARFAX. Details about the accident or damage event when reported to CARFAX (e.g. severity, impact location, airbag deployment) are included on the Vehicle History Report. CARFAX recommends you obtain a vehicle inspection from your dealer or an independent mechanic.

- According to the National Safety Council, Injury Facts, 2007 edition, 7% of the 245 million registered vehicles in the U.S. were involved in an accident in 2005. Over 75% of these were considered minor or moderate.
- CARFAX depends on many sources for its accident / damage data. CARFAX can only report what is in our database on 11/1/10 at 3:35:28 AM (EDT). New data will result in a change to this report.

CARFAX History Impact™

Accidents, service records, number of owners and many other history factors can impact a vehicle's value. The CARFAX History Impact is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX impacts the value of a particular vehicle. The vehicle's retail book value plus the CARFAX History Impact will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Salvage Title

A Salvage Title is issued on a vehicle damaged to the extent that the cost of repairing the vehicle exceeds ~ 75% of its pre-damage value. This damage threshold may vary by state. Some states treat Junk titles the same as Salvage but the majority use this title to indicate that a vehicle is not road worthy and cannot be titled again in that state. The following eleven states also use Salvage titles to identify stolen vehicles - AZ, FL, GA, IL, MD, MN, NJ, NM, NY, OK and OR.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used

as proof of ownership.

Total Loss Vehicle

An insurance or fleet company declares a vehicle a total loss when a claim exceeds ~ 75% of its pre-damage value or if the vehicle is stolen and not recovered. This damage threshold varies by company. These companies typically take possession and obtain the title. Not all total loss vehicles result in a DMV-reported branded title. This may occur when an insurance company's definition of a total loss is different than the state DMV's definition for a branded title or when the owner of the vehicle is a self-insured company, like a fleet or rental company.

CARFAX DEPENDS ON ITS SOURCES FOR THE ACCURACY AND RELIABILITY OF ITS INFORMATION. THEREFORE, NO RESPONSIBILITY IS ASSUMED BY CARFAX OR ITS AGENTS FOR ERRORS OR OMISSIONS IN THIS REPORT. LEGEND

The National Highway Traffic Safety Administration (NHTSA) provides 3 different ratings - **full-width frontal crash test**, **side impact crash test**, and **rollover resistance**. The frontal crash test indicates how well the safety features and restraints will protect an occupant in a head-on collision. The side-impact test conveys the chance of a severe chest injury, while the rollover resistance rating estimates the risk of rolling over in a single vehicle crash. Go to [NHTSA](#) to learn more about these results.

Safety Recalls**NHTSA Safety Recalls:**

Important: The following recalls were issued for the 2002 HONDA CIVIC EX by the National Highway Traffic and Safety Administration (NHTSA). To find out if a specific 2002 HONDA CIVIC EX still has open recalls that require repair, run a free [CARFAX Recall Check](#) or review the **CARFAX Vehicle History Report** results.

Recall date:	Not reported
Units potentially affected:	440,000
NHTSA campaign number:	04V086000
Defective part or component:	EXTERIOR LIGHTING:HEADLIGHTS
Description:	On certain passenger vehicles, the low-beam terminal on the head light wire harness can overheat and could cause the low beams to fail without warning. An unexpected loss of low beams could result in a crash. Dealers will inspect the head light switch and coupler for signs of heat damage. If heat damage is present, the dealer will replace the switch and coupler. If no heat damage is present, the dealer will replace the head light switch and one mating pin in the coupler. Owner notification is expected to begin during March 2004. Owners should contact Honda at 1-800-999-1009.
Recall date:	Not reported
Units potentially affected:	6,545
NHTSA campaign number:	07V512000
Defective part or component:	FUEL SYSTEM, OTHER:STORAGE:TANK ASSEMBLY
Description:	On certain compressed natural gas (cng) vehicles, in the event of a severe interior fire in the area of the rear seat, the cng tank may be heated unevenly, preventing the pressure relief device from venting the contents of the tank as designed. This could result in a tank rupture, explosion, and ejection of the tank from the vehicle. Dealers will install a heat insulator material to the rear seat back. An interim owner letter was mailed to owners beginning November 26, 2007. When parts are available, owners will be renotified asking them to bring in their vehicle for repair. Owners may contact Honda at 1-800-999-1009.

This 2002 HONDA CIVIC EX safety recall information was provided by the Insurance Institute for Highway Safety, Highway Data Loss Institute and is derived from the [National Highway Traffic and Safety Administration](#) list of safety recalls. Please call the National Highway Traffic and Safety Administration Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236) to report safety defects or to obtain information on cars, trucks, child seats, and highway or traffic safety. CARFAX does not review, validate or edit the information and statements provided by the National Highway Traffic and Safety Administration, which do not represent the opinion of CARFAX.

New Car Test Drive Review

Category:

Summary:

Review:

Hot Si puts some performance back into the lineup.

By Mitch McCullough, Editor-in-chief, NewCarTestDrive.com

These are great compact cars. Honda's new line of Civic models feature improvements in power and efficiency, cabin space, safety equipment, and noise and vibration. They come with more standard equipment than before. With engines earning high fuel economy figures, all models qualify for ULEV status. Its improvements and positive environmental position moves the Honda Civic ahead of the curve in the compact class.

Overview:

Honda completely redesigned its Civic lineup last year, coming out with all-new sedan and coupe models. This year, Honda has revised the entire Civic line to further improve handling and to reduce noise and vibration. The interior also gets some upgrades, particularly to the LX trim. That makes the 2002 Civic line the state of the art in Honda compacts.

Also new, is a hot new hatchback. The Honda Civic Si, a famous compact among performance enthusiast, adds some vinegar to the Civic lineup.

Regardless of model, the new Honda Civics offer quality, efficiency, pleasant road manners, and a comfortable cabin. They are among the best compact cars available. Honda's engineers are masters at space efficiency. Civic sedan, coupe, and hatchback body styles were all designed to maximize space for people and minimize the room given for mechanical systems. Compared with the previous-generation Civics, the these new Civics are roomier inside, yet smaller on the outside. They are marvels of efficient packaging.
